

Assignment 1: Task 2 Faster Food Delivery Part A

Jennifer Payne | August 27, 2022

Assumptions:

- Order status update is a log of food prep and delivery updates so a time stamped log of order status details
- A customer can order multiple quantities of the same item from the menu but the order volume will show in quantity field, hence 1..1 from Menu to order but customer can order many items from menu so 1..N relationship.
- Order status includes estimated delivery date and time.
- Assumes every customer has made at least 1 order
